

*Lithichrome*  
MATERIALS . . .

ALL LITHICHROME PRODUCTS, WHEREVER PURCHASED,  
MUST SATISFY OR THEIR COST WILL BE REFUNDED WITH-  
OUT QUESTION.

For over 60 years Lithichrome has specialized in color contrasting, bonding and weatherproofing all types of stone. So many precedent breaking "firsts" have been introduced that continued progress is to be expected. If some specialized material is not listed in this catalog, give us details of your need and perhaps it can be furnished. This brochure is more than a price list. It contains production methods which will give shopmen new ideas. It has sales aids which will help any salesman who is aware that personalizing a monument is often the difference between a competitive price basis sale and a profitable sale. Make certain your shopmen and sales force have access to this booklet. If more copies are needed, just ask for the number desired.

Lithco Color Chart showing Lithco Colors available. See Page 7 for Lithco Colors data.  
Colors not shown on chart are White, Black, Grey and Light Brown.
